

## **DIY LTD**

Plot No. 42 Mikocheni Mwenge

Near Majembe Auction Mart

P.O. Box 19886, Dar Es Salaam, Tanzania.

## **INTRODUCTION**

DIY LTD is a one stop shop solution for all building materials in Tanzania. Based in Dar es Salaam, we offer a whole new experience to our customers to choose from all leading brands to ensure availability of quality products at an affordable price.

Apart from that, we came up with a new product called **BEKOTEK WALL MASTER**, which is specifically used for painting internal and external walls. We are the exclusive Distributor of this product in Tanzania.

## **PRODUCT SPECIFICATION**

There are up to 10 different formulas on this product, but at the moment we are only supplying four of them which are, ***NATURAL PLASTER, CEREMAZIDE PLASTER, MIKRO PLASTER and GOLD SHINY PLASTER.***

### **NATURAL PLASTER**

It is acrylic copolymer resin based, natural color marble grained decorative and long lasting internal and external plaster.

It has a high durability against atmosphere weather conditions; it sticks well and is strong against rubbing and washing. After drying it has a decorative natural grained appearance. It has no any harm to human health and environment.

## **CEREMAZIDE PLASTER**

It is acrylic copolymer resin based, natural decorative plaster made of natural colored marble grains.

To its high quality composition, it has durability against outer factors and climate changes like moisture, humidity. With its long lasting life, it is non flammable, does not flow and can be washed easily. It keeps its appearance for long time.

## **MIRKO PLASTER**

It is acrylic copolymer resin based; colored decorative plaster made of micronized colored marble grids, and is a long lasting internal spray plaster.

It has resistance against atmospheric weather condition. It sticks well and is strong. After drying it has a decorative barky appearance. It is recommended to use on internal applications.

## **GOLD SHINY PLASTER**

Bekoteks shiny gold mineral plaster is made of natural marble grids with melted glitter covered decorative and long lasting internal and external plaster based on acrylic emulsion resin.

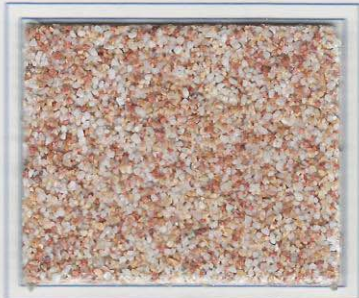

It has high durability against atmospheric weather conditions. It sticks well and is strong against rubbing and washing. After drying it has a decorative natural grained appearance. It has no any harm to human health and environment.

**\*NOTE-** They can be applied on all kind of surface like concrete, gas concrete, brick, wood surface external and internal. The surface to be applied has to be prepared, surface default, cracks, roughness has to be removed, and the surface needs to be dry and clean.
